Amanda VanDerHeyden, Ph.D. and Matthew Burns, Ph.D.

Thursday, October 15, 2009

7:00-8:00 p.m.

**Granite District Offices
2500 South State Street
Rooms 104-106 (enter West door off Main Street)**

Light refreshments will be served prior to the workshop

RSVP requested for refreshment count: Diana Bowman 801-629-4746; dianab@usdb.org

Parents of students ages 5-18 are invited to come and hear from the national experts!

- **Helpful hints for parents of students who struggle with academic achievement**
- **Evidence-based ideas for parents to help children with needed skills for reading and math success**
- **Problem-solving thoughts for students not making progress toward grade level**

Dr. VanDerHeyden is a private consultant and researcher who has worked with school districts to provide guidance in assessing specific learning disabilities and implementing effective academic interventions.

Dr. Burns is an Associate Professor of Educational Psychology at University of Minnesota. He conducts trainings regarding response to intervention with school districts in meeting the academic needs of children.
